

HLP New Product Information Sheet.

Model: S266 - SMS Alarm & Logging System for Temperatures

This is a 3G/4G compatible small sized SMS alarm unit. It has 2 Relay Outputs and 8 x Temperature Inputs.

Up to 10 phones can be sent an SMS when any of the temperatures are outside the limits. Inbuilt rechargeable battery provides power fail protection and the package comes with a mains power pack. The unit will also power up from 9 to 36 VDC supply for mobile applications.

Includes an aerial, USB cable, CD, and setup software, the package is complete. We also include a LOW cost sim card that provides \$0.15C SMS with no monthly charge.

This unit also can use the GSM network to log the alarms to a cloud server for history if needed. Complete Data Logger and Alarm System.
Maximum 100K readings in memory
Low cost / High performance
