

# HLP New Product Information Sheet.

## 1Channel Count Down/Up Timer

### Model T1-Timer

This is an ideal all round timer for use in food industries. The time range is up to 99Min and 59 sec in 1 second increments.

Each timer starts at the required time and counts down to 0, beeps continuously and then times up to let you know how much time has elapsed since the beeping started. Handy if you come back to find the unit beeping, you then know how long ago the time was up !!

The unit remembers the last set time so that you don't have to reset the value each time if you use the same time setting.

The beeper is loud and is suitable for relatively noisy environments.

Quick set feature ramps up the set time if you hold the min or sec button down.

#### Size:

60 mm high

68 mm wide

15 mm deep.

Display: large 4 digit display

Accuracy: +/- 0.05%

Functions: Timer 1 max 99 Min 59 Sec

Battery life: 1 x AAA battery lasts up to 1 year.
